SUMMARY

Frontend Developer skilled in React.js, TypeScript, Next.js, and Tailwind CSS. Passionate about crafting responsive, accessible, and user-focused web interfaces with clean UI and intuitive UX. Experienced in building modern web apps with performance and scalability in mind. Strong problem-solving ability, fast learner, and team-oriented mindset. Seeking a front-end internship to apply my skills, contribute to real projects, and grow in a collaborative environment.

SKILLS

JavaScript | TypeScript | React.js | Next.js | Tailwind CSS | Redux | Git | GitHub | Figma

PROJECTS

Solo-Sphere

[Live Link](#)

[Source Code](#)

- Developed a responsive and user-friendly job hunting platform where users can explore, search, and apply for jobs.
- Implemented user authentication (login/register), job posting, and real-time application tracking using JWT and MongoDB.

Game OnGear

[Live Link](#)

[Source Code](#)

- Built a modern, responsive e-commerce platform tailored for showcasing and selling a wide range of sports items and accessories
- Dynamic product listings with detailed product pages fetched from backend database

E-commerce Website

[Live Link](#)

[Source Code](#)

- Developed a responsive and user-friendly e-commerce website focused on selling mobiles, laptops, and related accessories.
- Implemented shopping cart and wishlist features using client-side LocalStorage to ensure data persistence and smooth user experience without backend dependency
