SUMMARY

Frontend Developer skilled in React.js, JavaScript, and Tailwind CSS, with experience building responsive, accessible, and user-focused interfaces that deliver clean UI and intuitive UX. Knowledgeable in backend technologies including MongoDB, Express.js, and Node.js, enabling full-stack application development with performance and scalability in mind.

SKILLS

- JavaScript | React.js | Tailwind CSS | Git | GitHub | Figma | MongoDB | Express JS | Node JS

PROJECTS

Bistro Boss

[Live Link](#) [Source Code](#)

- Developed a full-stack restaurant management system using MERN stack, featuring role-based dashboards, secure authentication, and Stripe payment integration.
- Implemented dynamic menu management, cart system, order tracking, and admin controls, enhancing user experience and operational efficiency.

Foodie_Frenzy

[Live Link](#) [Source Code](#)

- Built a responsive and interactive recipe web application “Foodie Frenzy” using React and Tailwind CSS.
- Implemented dynamic UI components, routing, and state management to enable recipe browsing, bookmarking, and user interactions.

Gudget Heaven

[Live Link](#) [Source Code](#)

- Developed a responsive and user-friendly e-commerce website focused on selling mobiles, laptops, and related accessories.
- Implemented shopping cart and wishlist features using client-side LocalStorage to ensure data persistence and smooth user experience without backend dependency
